

X5 MKII Streaming Transporter

USER MANUAL

ENGLISH

INTRODUCTION

Congratulations on your purchase! Consonance X5 MKII is an Network Bridge and Streaming Transporter designed with 3 key principles in mind: ease of use, universal compatibility with music sources and sound quality. To achieve its best potential, please read this manual carefully. If needed, our support team is there to assist for any doubt or question regarding our products at operaamp@vip.163.com

QUICK START GUIDE

X5 MKII is a ready to play device. From Unboxing, the unit is ready to play in less than 5 minutes. In order to get started please follow those steps:

Step 1: Unbox your X5 MKII.

Step 2: Screw the included Wireless Antenna.

Step 4: Plug power supply and connect to USB DAC.

Step 5: Wait 3 minutes for X5 MKII to do first start initialization.

Step 6: Connect to the wireless Hotspot network called Opera (password 12345678).

Step 7: Complete the first setup wizard.

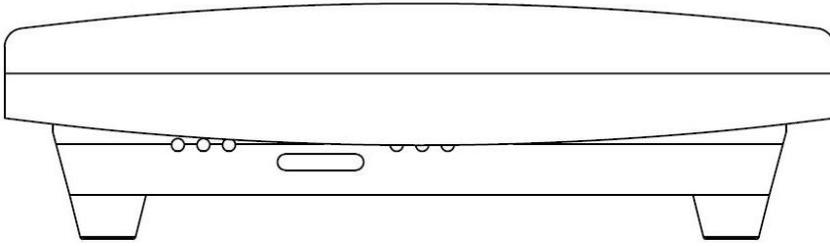

Step 8: Done.

WHAT IT'S IN THE PACKAGE

- X5 MKII
- Wireless Antenna
- Power Supply
- User Manual

IO OVERVIEW

1/2 Front

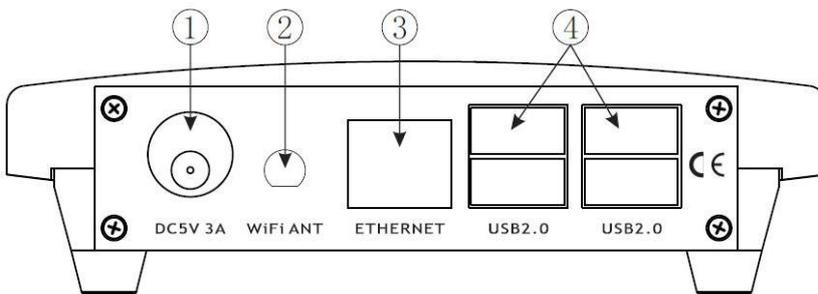

Power Switch: The switch is on the left and the red LED is on, which is turn off and charging.
The switch is on the right side, the green LED is on, and it is working on the battery supply.

Charging status indication: The red LED is on, indicating that it is in the charging state, and the off is indicating that the charging is over.

Battery supply indication: The green LED lights up to indicate that the RDS1 is working on battery supply.

REAR I/O OVERVIEW

① **Power Supply Socket:** DC 5V In

② **WiFi Antenna:** To ensure optimal Wireless performances, screw the provided wireless Antenna. Please note that Wireless connection performances might not be optimal for Streaming Hi Resolution Audio, especially if Router is not located near the X5 MKII or if operated in a very crowded neighbourhood.

③ **GIGABIT NETWORK:** Wired Network interface. This is the suggested network connection for playing Hi-Resolution material. Connect this interface to your router via an Ethernet cable.

④ **USB2.0:** Those ports can be used to attach USB Accessories such as Thumb Drives, Keyboard\Mouse, Smart Remotes and USB DAC.

CONNECTION TO THE UNIT

X5 MKII works best when it is connected to your network, since it is meant to be used as a headless device: no monitor connected, and controlled via another device (PC, smartphone, tablet etc). It is the easiest way to connect your router to your network with a network cable. No setup is required.

Another easy way to connect to X5 MKII, especially on first setup, is to connect in Hotspot Mode. If no wireless network is configured, it will create a network called "Opera". Simply connect to it (password: 12345678) and the User Interface will automatically pop up.

X5 MKII can be controlled via a Web User Interface, it means that the controlling device can be a mobile phone, a tablet, a PC, a Smart TV and more generally, anything with a browser. For an optimal experience, Google Chrome is suggested.

To reach our User Interface, first discover the IP address of your X5 MKII. To do so, an easy way is to use FING Android and iOS App.

Opera_consonance also provides Android apps. It will automatically discover the X5 MKII on your Network and reach web-UI.

Apple system opens Safari browser, enter opera.local/, PC recommends using Google Chrome, enter opera/ to reach web-UI.

FIRST SETUP

Once the system is operational and you have connected to it through your network or via the hotspot, you will reach Opera's web-UI.

The first time please click on the cog-wheel  in the top right part of the UI, select system and click on "Run first config Wizard", a helper will assist you to configure X5 MKII. Any configuration done in this phase can be later reverted.

Those are the first configuration steps:

LANGUAGE: Select your desired operational language.

NAME: Give your X5 MKII a unique name like "Living Room", "Studio" etc. This will be useful to identify your X5 MKII in case you have more than one. The default name is "Opera".

OUTPUT: Select the desired audio output: USB DAC.

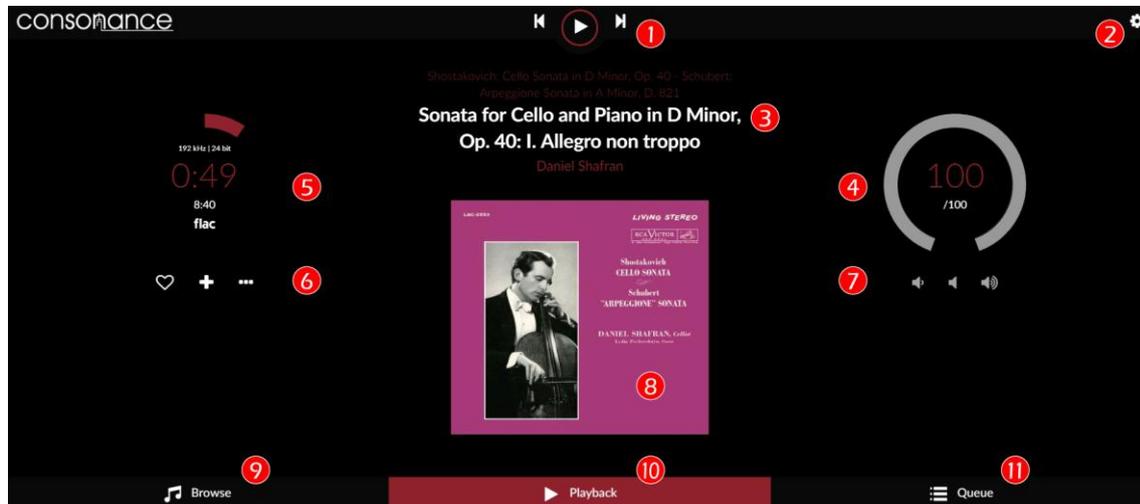

NETWORK: If you wish to configure your X5 MKII to connect to your Wireless Network, here you will be able to see all available wireless network and connect to them. In case of Hotspot operation, X5 MKII will connect to the wireless network after the Setup Wizard has been terminated. In this case, you must find it's IP address again (see Connection to the Unit section).

MUSIC: You can configure a Network Attached Storage for music retrieval or connect a USB Drive with your music.

Once the first setup has been completed, your X5 MKII is ready.

FIRST STEPS WITH X5 MKII

Depending on the device used to connect to X5 MKII, a desktop or mobile version of the User Interface is shown. Both provide same features, but ergonomic is different to best fit with the use (mobile or desktop).

Opera's User Interface is made up by 4 main components:

-  Playback Page tab
-  Browser Page tab
-  Play Queue tab
-  Settings pages

1 - Command buttons

Play/Stop
 Previous: jump to previous track
 Next: jump to next track

2 - Settings gears

Here you'll find all settings for X5 MKII such as:

My Music: Music sources (nas, usb and album art management)

Playback options: Output device settings (dac, mixer, resampling)

Network : Set your wifi, ethernet, dns

10 – Other

Depending on plugins/options you have installed, you may have other tab such Spotify, Qobuz...

QUEUE PAGE

Clicking on Queue tab will allow to access to the queue of the tracks that are going to be played.

1 Random

Randomize the order tracks are played

2 Repeat

Repeat the track

3 Save

Save the current queue as a playlist. A name is asked for this Playlist

4 Clear queue

Clear the current queue

5 Remove track

Remove track from the queue

More features

You can change the order of each track by clicking and moving it up or down.

SOFTWARE UPDATES

X5 MKII features an OTA (Over The Air) updater, meant to allow seamless and reliable way to update to new system versions. It's strongly suggested to check for updates periodically to ensure that your system is always at the latest version.

How to check for Updates

- Verify that your X5 MKII is connected to the Internet
- Click on the cog-wheel in the top right part of the UI
- Select system
- Click on "Check Updates"
- If an update is available, you'll be presented with the new features.
- Click on "Update Now"
- System update will start, and depending on the update size it might take up to 20 minutes
- Once Update has finished, you'll be asked to reboot. Do it
- The system will now restart, and the new version will be applied
- **IMPORTANT:** Do not remove power in this phase, as it might damage the unit.

SPECIFICATIONS
